DETAILED ACTION

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1, 3, 5, and 7 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Nelson (5,255,873).

See especially column 2, lines 38-54 and column 3, lines 15-38. In regard to claim 7, note that column 3, lines 35-38, inherently describes a non-monocoque internal structural framework.

3. Claims 2, 4, 6, and 8-32 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Hall, Powell et al, Wexler et al, Nelson (5,395,072), Manfredi et al, and Earl are cited as being of interest since they disclose lifting body spacecraft and aircraft launching systems.

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to J. Woodrow Eldred whose telephone number is 703-306-4151. The examiner can normally be reached on Monday to Thursday, from 8:00 a.m. to 5:30 p.m..
